

CFD CANADA

Training Course

Solving Industrial Problems Using Advanced Engineering Software for Fluid Flow, Heat, Chemical and Stress Analysis

This certificate is awarded to acknowledge that

Alexandre Martin

successfully completed 3 day Educational Course

Program Modules: Grid Generation (structured, unstructured), Basic Fluid Flow, Heat Transfer, Transport and Fluid-Structure-Interactions

**that was held at the Center for Research on Computation and its Applications, CERCA
Montreal, Quebec location on December 4-6, 2000**
